SUPPLEMENTAL INFORMATION

Supplement dated August 12, 2024 to

Supplement the Statement of Additional Information Dated March 28, 2024

Page 20

Custodian

Huntington National Bank, 41 South High Street, Columbus, Ohio 43215, serves as the Funds' custodian ("Custodian"). The Custodian acts as the Funds' depository, provides safekeeping of its portfolio securities, collects all income and other payments with respect thereto, disburses funds at the Funds' request and maintains records in connection with its duties.

This Supplement and the Prospectus and Statement of Additional Information dated March 28, 2024, as supplemented August 12, 2024, provide relevant information for all shareholders and should be retained for future reference. Both the Prospectus and the Statement of Additional Information have been filed with the Securities and Exchange Commission, are incorporated by reference and can be obtained without charge by calling the Fund at 1-866-458-4744.

Please retain this Supplement for future reference.

STATEMENT OF ADDITIONAL INFORMATION

March 28, 2024

Advised by:

Parvin Fund Management, LLC

Sub-Advised by:

Parvin Asset Management, LLC

This Statement of Additional Information ("SAI") is not a prospectus. It should be read in conjunction with the Prospectus for the Parvin Hedged Equity Solari World Fund (the "Fund") dated March 28, 2024. The Fund's financial statements are included in its Annual Report and are incorporated by reference into this SAI by subsequent amendment. A copy of the Fund's Prospectus or Annual Report can be obtained at no charge by writing the transfer agent, Mutual Shareholder Services, LLC, at 8000 Town Centre Drive, Suite 400, Broadview Heights, Ohio 44147-4003, or by calling 1-866-458-4744. The Fund's Prospectus is incorporated by reference into this SAI.

DESCRIPTION OF THE TRUST AND FUND

The Parvin Hedged Equity Solari World Fund was organized as a diversified series of the MSS Series Trust (the "Trust") on December 16, 2020 and commenced investment operations on December 31, 2020. The Trust is an open-end investment company established under the laws of Ohio by an Agreement and Declaration of Trust dated June 20, 2006 (the "Trust Agreement"). The Trust Agreement permits the Board of Trustees to authorize and issue an unlimited number of shares of beneficial interest of separate series without par value. The Fund is one of a number of series currently authorized by the Trustees. The investment adviser to the Fund is Parvin Fund Management, LLC (the "Adviser"). The investment sub-adviser to the Fund is Parvin Asset Management, LLC (the "Sub-Adviser").

The Fund does not issue physical share certificates. All shares are held in non-certificated form registered on the books of the Fund and the transfer agent for the account of the shareholder. Each share of a series represents an equal proportionate interest in the assets and liabilities belonging to that series with each other share of that series and is entitled to such dividends and distributions out of income belonging to the series as are declared by the Trustees. The shares do not have cumulative voting rights or any preemptive or conversion rights, and the Trustees have the authority from time to time to divide or combine the shares of any series into a greater or lesser number of shares of that series so long as the proportionate beneficial interest in the assets belonging to that series and the rights of shares of any other series are in no way affected. In case of any liquidation of a series, the holders of shares of the series being liquidated will be entitled to receive as a class a distribution out of the assets, net of the liabilities, belonging to that series. Expenses attributable to any series are borne by that series. Any general expenses of the Trust not readily identifiable as belonging to a particular series are allocated by or under the direction of the Trustees in such manner as the Trustees determine to be fair and equitable. No shareholder is liable to further calls or to assessment by the Trust without his or her express consent.

The Trust does not hold an annual meeting of shareholders. When matters are submitted to shareholders for a vote, each shareholder is entitled to one vote for each whole share he owns and fractional votes for fractional shares he owns. All shares of the Fund have equal voting rights and liquidation rights. The Agreement and Declaration of Trust can be amended by the Trustees, except that any amendment that adversely affects the rights of shareholders must be approved by the shareholders affected. All shares of the Fund are subject to involuntary redemption if the Trustees determine to liquidate the Fund. An involuntary redemption will create a capital gain or a capital loss, which may have tax consequences about which you should consult your tax advisor.

For information concerning the purchase and redemption of shares of the Fund, see "How to Purchase Shares" and "How to Redeem Shares" in the Fund's prospectus. For a description of the methods used to determine the share price and value of a Fund's assets, see "How Shares are Priced" in the Fund's prospectus and "Determination of Share Price" in this Statement of Additional Information.

ADDITIONAL INFORMATION ABOUT THE FUNDS' INVESTMENTS

Investment Strategies and Risks

All principal investment strategies and risks of the Fund are discussed in its Prospectus. This section contains a more detailed discussion of some of the investments the Fund may make and some of the techniques they may use. Additional non-principal strategies and risks also are discussed here.

Certificates of Deposit and Bankers' Acceptances

The Fund may invest in certificates of deposit and bankers' acceptances, which are considered to be short-term money market instruments.

Certificates of deposit are receipts issued by a depository institution in exchange for the deposit of funds. The issuer agrees to pay the amount deposited plus interest to the bearer of the receipt on the date specified on the certificate. The certificate usually can be traded in the secondary market prior to maturity. Bankers' acceptances typically arise from short-term credit arrangements designed to enable businesses to obtain funds to finance commercial transactions. Generally, an acceptance is a time draft drawn on a bank by an exporter or an importer to obtain a stated amount of funds to pay for

specific merchandise. The draft is then "accepted" by a bank that, in effect, unconditionally guarantees to pay the face value of the instrument on its maturity date. The acceptance may then be held by the accepting bank as an earning asset or it may be sold in the secondary market at the going rate of discount for a specific maturity. Although maturities for acceptances can be as long as 270 days, most acceptances have maturities of six months or less.

Closed-End Investment Companies

The Fund may invest assets in "closed-end" investment companies (or "closed-end funds"), subject to the investment restrictions set forth above. Shares of closed-end funds are typically offered to the public in a one-time initial public offering by a group of underwriters who retain a spread or underwriting commission of between 4% or 6% of the initial public offering price. Such securities are then listed for trading on the New York Stock Exchange, the NYSE MKT LLC (formerly known as the American Stock Exchange), the National Association of Securities Dealers Automated Quotation System (commonly known as "NASDAQ") and, in some cases, may be traded in other over-the-counter markets. Because the shares of closed-end funds cannot be redeemed upon demand to the issuer like the shares of an open-end investment company (such as the Fund), investors seek to buy and sell shares of closed-end funds in the secondary market.

The Fund generally will purchase shares of closed-end funds only in the secondary market. The Fund will incur normal brokerage costs on such purchases similar to the expenses the Fund would incur for the purchase of securities of any other type of issuer in the secondary market. The Fund may, however, also purchase securities of a closed-end fund in an initial public offering when, in the opinion of the Adviser, based on a consideration of the nature of the closed-end fund's proposed investments, the prevailing market conditions and the level of demand for such securities, they represent an attractive opportunity for growth of capital. The initial offering price typically will include a dealer spread, which may be higher than the applicable brokerage cost if the Fund purchased such securities in the secondary market.

The shares of many closed-end funds, after their initial public offering, frequently trade at a price per share that is less than the net asset value per share, the difference representing the "market discount" of such shares. This market discount may be due in part to the investment objective of long-term appreciation, which is sought by many closed-end funds, as well as to the fact that the shares of closed-end funds are not redeemable by the holder upon demand to the issuer at the next determined net asset value, but rather, are subject to supply and demand in the secondary market. A relative lack of secondary market purchasers of closed-end fund shares also may contribute to such shares trading at a discount to their net asset value.

The Fund may invest in shares of closed-end funds that are trading at a discount to net asset value or at a premium to net asset value. There can be no assurance that the market discount on shares of any closed-end fund purchased by the Fund will ever decrease. In fact, it is possible that this market discount may increase and the Fund may suffer realized or unrealized capital losses due to further decline in the market price of the securities of such closed-end funds, thereby adversely affecting the net asset value of the Fund's shares. Similarly, there can be no assurance that any shares of a closed-end fund purchased by the Fund at a premium will continue to trade at a premium or that the premium will not decrease subsequent to a purchase of such shares by the Fund.

Closed-end funds may issue senior securities (including preferred stock and debt obligations) for the purpose of leveraging the closed-end fund's common shares in an attempt to enhance the current return to such closed-end fund's common shareholders. The Fund's investment in the common shares of closed-end funds that are financially leveraged may create an opportunity for greater total return on its investment, but at the same time may be expected to exhibit more volatility in market price and net asset value than an investment in shares of investment companies without a leveraged capital structure.

Commercial Paper

The Fund may purchase commercial paper. Commercial paper consists of short-term (usually from 1 to 270 days) unsecured promissory notes issued by corporations in order to finance current operations.

Convertible Securities

The Fund may invest in convertible securities. Convertible securities include fixed income securities that may be exchanged or converted into a predetermined number of shares of the issuer's underlying common stock at the option of the holder during a specified period. Convertible securities may take the form of convertible preferred stock, convertible bonds or debentures, units consisting of "usable" bonds and warrants or a combination of the features of several of these securities. Convertible securities are senior to common stocks in an issuer's capital structure, but are usually subordinated to similar non-convertible securities. While providing a fixed-income stream (generally higher in yield than the income derivable from common stock but lower than that afforded by a similar nonconvertible security), a convertible security also gives an investor the opportunity, through its conversion feature, to participate in the capital appreciation of the issuing company depending upon a market price advance in the convertible security's underlying common stock.

Corporate Debt

Corporate debt securities are long and short-term debt obligations issued by companies (such as publicly issued and privately placed bonds, notes and commercial paper). The Adviser considers corporate debt securities to be of investment grade quality if they are rated BBB- or higher by S&P or Baa3 or higher by Moody's, or if unrated, determined by the Adviser to be of comparable quality. Investment grade debt securities generally have adequate to strong protection of principal and interest payments. In the lower end of this category, adverse economic conditions or changing circumstances are more likely to lead to a weakened capacity to pay interest and repay principal than in higher rated categories. The Fund may invest in both secured and unsecured corporate bonds. A secured bond is backed by collateral and an unsecured bond is not. Therefore an unsecured bond may have a lower recovery value than a secured bond in the event of a default by its issuer. The Adviser may incorrectly analyze the risks inherent in corporate bonds, such as the issuer's ability to meet interest and principal payments, resulting in a loss to the Fund.

Depository Receipts

The Fund may invest in sponsored and unsponsored American Depositary Receipts ("ADRs"), which are receipts issued by an American bank or trust company evidencing ownership of underlying securities issued by a foreign issuer. ADRs, in sponsored form, are designed for use in U.S. securities markets. A sponsoring company provides financial information to the bank and may subsidize administration of the ADR. Unsponsored ADRs may be created by a broker-dealer or depository bank without the participation of the foreign issuer. Holders of these ADRs generally bear all the costs of the ADR facility, whereas foreign issuers typically bear certain costs in a sponsored ADR. The bank or trust company depository of an unsponsored ADR may be under no obligation to distribute shareholder communications received from the foreign issuer or to pass through voting rights. Unsponsored ADRs may carry more risk than sponsored ADRs because of the absence of financial information provided by the underlying company. Many of the risks described below regarding foreign securities apply to investments in ADRs.

Derivatives Risk

The risk of investing in derivative instruments (such as futures, swaps and structured securities), including leverage, liquidity, interest rate, market, credit and management risks, mispricing or valuation complexity. Changes in the value of the derivative may not correlate perfectly with, and may be more sensitive to market events than, the underlying asset, rate or index, and the Fund could lose more than the initial amount invested. The Fund's use of derivatives may result in losses to the Fund, a reduction in the Fund's returns and/or increased volatility. Over-the-counter ("OTC") derivatives are also subject to the risk that a counterparty to the transaction will not fulfill its contractual obligations to the other party, as many of the protections afforded to centrally-cleared derivative transactions might not be available for OTC derivatives. For derivatives traded on an exchange or through a central counterparty, credit risk resides with the Fund's clearing broker, or the clearinghouse itself, rather than with a counterparty in an OTC derivative transaction. Changes in regulation relating to a mutual fund's use of derivatives and related instruments could potentially limit or impact the Fund's ability to invest in derivatives, limit the Fund's ability to employ certain strategies that use derivatives and/or adversely affect the value of derivatives and the Fund's performance.

Emerging Markets Securities

The Fund may purchase ETFs and other closed end funds that invest in emerging market securities. Investing in emerging market securities imposes risks different from, or greater than, risks of investing in foreign developed countries. These risks include (i) the smaller market capitalization of securities markets, which may suffer periods of relative illiquidity, (ii) significant price volatility, (iii) restrictions on foreign investment, and (iv) possible repatriation of investment income and capital. In addition, foreign investors may be required to register the proceeds of sales, and future economic or political crises could lead to price controls, forced mergers, expropriation or confiscatory taxation, seizure, nationalization, or the creation of government monopolies. The currencies of emerging market countries may experience significant declines against the U.S. dollar, and devaluation may occur subsequent to investments in these currencies by the Fund. Inflation and rapid fluctuations in inflation rates have had, and may continue to have, negative effects on the economies and securities markets of certain emerging market countries.

Additional risks of emerging markets securities may include (i) greater social, economic and political uncertainty and instability, (ii) more substantial governmental involvement in the economy, (iii) less governmental supervision and regulation, (iv) the unavailability of currency hedging techniques, (v) companies that are newly organized and small, (vi) differences in auditing and financial reporting standards, which may result in unavailability of material information about issuers, and (vii) less developed legal systems. In addition, emerging securities markets may have different clearance and settlement procedures, which may be unable to keep pace with the volume of securities transactions or otherwise make it difficult to engage in such transactions. Settlement problems may cause the Fund to miss attractive investment opportunities, hold a portion of its assets in cash pending investment, or be delayed in disposing of a portfolio security. Such a delay could result in possible liability to a purchaser of the security.

Equity Securities

Equity securities consist of common stock, convertible preferred stock, rights and warrants. Common stocks, the most familiar type, represent an equity (ownership) interest in a corporation. Warrants are options to purchase equity securities at a specified price for a specific time period. Rights are similar to warrants, but normally have a short duration and are distributed by the issuer to its shareholders. Although equity securities have a history of long-term growth in value, their prices fluctuate based on changes in a company's financial condition and on overall market and economic conditions.

Investments in equity securities are subject to inherent market risks and fluctuations in value due to earnings, economic conditions and other factors beyond the control of the Adviser. As a result, the return and net asset value of the Fund will fluctuate. Securities in the Fund's portfolio may not increase as much as the market as a whole and some undervalued securities may continue to be undervalued for long periods of time. Although profits in some Fund holdings may be realized quickly, it is not expected that most investments will appreciate rapidly.

Exchange Traded Funds

The Fund may invest in a range of exchange-traded funds ("ETFs"). Because many ETFs are considered to be investment companies, see "Investments in Other Investment Companies" below for additional information.

When the Fund invests in sector ETFs, there is a risk that securities within the same group of industries will decline in price due to sector-specific market or economic developments. If the Fund invests more heavily in a particular sector, the value of its shares may be especially sensitive to factors and economic risks that specifically affect that sector. As a result, the Fund's share price may fluctuate more widely than the value of shares of a mutual fund that invests in a broader range of industries. Additionally, some sectors could be subject to greater government regulation than other sectors. Therefore, changes in regulatory policies for those sectors may have a material effect on the value of securities issued by companies in those sectors. The sectors in which the Fund may be more heavily invested will vary.

The shares of an ETF may be assembled in a block (typically 50,000 shares) known as a creation unit and redeemed in-kind for a portfolio of the underlying securities (based on the ETF's net asset value) together with a cash payment generally equal to accumulated dividends as of the date of redemption. Conversely, a creation unit may be purchased from the ETF by

depositing a specified portfolio of the ETF's underlying securities, as well as a cash payment generally equal to accumulated dividends of the securities (net of expenses) up to the time of deposit. The Fund may redeem creation units for the underlying securities (and any applicable cash), and may assemble a portfolio of the underlying securities and use it (and any required cash) to purchase creation units, if the Fund's Adviser believes it is in the Fund's interest to do so. The Fund's ability to redeem creation units may be limited by the Investment Company Act of 1940, as amended, which provides that the ETFs will not be obligated to redeem shares held by a Fund in an amount exceeding one percent of their total outstanding securities during any period of less than 30 days.

There is a risk that the underlying ETFs in which the Fund invests may terminate due to extraordinary events that may cause any of the service providers to the ETFs, such as the trustee or sponsor, to close or otherwise fail to perform their obligations to the ETF. Also, because the ETFs in which the Fund intends to invest may be granted licenses by agreement to use the indices as a basis for determining their compositions and/or otherwise to use certain trade names, the ETFs may terminate if such license agreements are terminated. In addition, an ETF may terminate if its entire net asset value falls below a certain amount. Although the Fund believes that, in the event of the termination of an underlying ETF they will be able to invest instead in shares of an alternate ETF tracking the same market index or another market index with the same general market, there is no guarantee that shares of an alternate ETF would be available for investment at that time.

Fixed Income Securities

Fixed income securities include bonds and securities offered on a when-issued, delayed delivery, or forward commitment basis. Fixed income securities are subject to credit risk and interest rate risk. Credit risk is the risk that the Fund could lose money if an issuer of a fixed income security cannot meet its financial obligations or goes bankrupt. Interest rate risk is the risk that the Fund's investments in fixed income securities may fall when interest rates rise.

Investments in high-yield bonds are considered to be more speculative than higher quality fixed income securities. They are more susceptible to credit risk than investment-grade securities, especially during periods of economic uncertainty or economic downturns. The value of lower quality securities are subject to greater volatility and are generally more dependent on the ability of the issuer to meet interest and principal payments than higher quality securities. Issuers of high-yield securities may not be as strong financially as those issuing bonds with higher credit ratings.

Foreign Securities

Foreign securities are considered for purchase only if they are trading in domestic markets through an American Depositary Receipt (ADR). Purchases of foreign equity securities entail certain risks. For example, there may be less information publicly available about a foreign company than about a U.S. company, and foreign companies generally are not subject to accounting, auditing and financial reporting standards and practices comparable to those in the U.S. Other risks associated with investments in foreign securities include changes in restrictions on foreign currency transactions and rates of exchange, changes in the administrations or economic and monetary policies of foreign governments, the imposition of exchange control regulations, the possibility of expropriation decrees and other adverse foreign governmental action, the imposition of foreign taxes, less liquid markets, less government supervision of exchanges, brokers and issuers, difficulty in enforcing contractual obligations, delays in settlement of securities transactions and greater price volatility. In addition, investing in foreign securities will generally result in higher commissions than investing in similar domestic securities.

Illiquid and Restricted Securities

The Fund may invest up to 15% of its net assets in illiquid securities. Illiquid securities include securities subject to contractual or legal restrictions on resale (e.g., because they have not been registered under the Securities Act of 1933, as amended (the "Securities Act")) and securities that are otherwise not readily marketable (e.g., because trading in the security is suspended or because market makers do not exist or will not entertain bids or offers). Securities that have not been registered under the Securities Act are referred to as private placements or restricted securities and are purchased directly from the issuer or in the secondary market. Foreign securities that are freely tradable in their principal markets are not considered to be illiquid.

Restricted and other illiquid securities may be subject to the potential for delays on resale and uncertainty in valuation. The Fund might be unable to dispose of illiquid securities promptly or at reasonable prices and might thereby experience difficulty in satisfying redemption requests from shareholders. The Fund might have to register restricted securities in order to dispose of them, resulting in additional expense and delay. Adverse market conditions could impede such a public offering of securities.

A large institutional market exists for certain securities that are not registered under the Securities Act, including foreign securities. The fact that there are contractual or legal restrictions on resale to the general public or to certain institutions may not be indicative of the liquidity of such investments. Rule 144A under the Securities Act allows such a broader institutional trading market for securities otherwise subject to restrictions on resale to the general public. Rule 144A establishes a "safe harbor" from the registration requirements of the Securities Act for resale of certain securities to qualified institutional buyers. Rule 144A has produced enhanced liquidity for many restricted securities, and market liquidity for such securities may continue to expand as a result of this regulation and the consequent existence of the PORTAL system, which is an automated system for the trading, clearance and settlement of unregistered securities of domestic and foreign issuers sponsored by the National Association of Securities Dealers, Inc., now known as the Financial Industry Regulatory Authority, Inc.

Under guidelines adopted by the Trust's Board, the Funds' Adviser may determine that particular Rule 144A securities, and commercial paper issued in reliance on the private placement exemption from registration afforded by Section 4(a)(2) of the Securities Act, are liquid even though they are not registered. A determination of whether such a security is liquid or not is a question of fact. In making this determination, the Adviser will consider, as it deems appropriate under the circumstances and among other factors: (1) the frequency of trades and quotes for the security; (2) the number of dealers willing to purchase or sell the security; (3) the number of other potential purchasers of the security; (4) dealer undertakings to make a market in the security; (5) the nature of the security (e.g., debt or equity, date of maturity, terms of dividend or interest payments, and other material terms) and the nature of the marketplace trades (e.g., the time needed to dispose of the security, the method of soliciting offers, and the mechanics of transfer); and (6) the rating of the security and the financial condition and prospects of the issuer. In the case of commercial paper, the Adviser will also determine that the paper (1) is not traded flat or in default as to principal and interest, and (2) is rated in one of the two highest rating categories by at least two National Statistical Rating Organization ("NRSRO") or, if only one NRSRO rates the security, by that NRSRO, or, if the security is unrated, the Adviser determines that it is of equivalent quality.

Rule 144A securities and Section 4(a)(2) commercial paper that have been deemed liquid as described above will continue to be monitored by the Adviser to determine if the security is no longer liquid as the result of changed conditions. Investing in Rule 144A securities or Section 4(a)(2) commercial paper could have the effect of increasing the amount of a Fund's assets invested in illiquid securities if institutional buyers are unwilling to purchase such securities.

Indexed Securities

The Fund may purchase indexed securities consistent with their investment objectives. Indexed securities are those, the value of which varies positively or negatively in relation to the value of other securities, securities indices or other financial indicators. Indexed securities may be debt securities or deposits whose value at maturity or coupon rate is determined by reference to a specific instrument or statistic. Recent issuers of indexed securities have included banks, corporations and certain U.S. Government agencies.

The performance of indexed securities depends to a great extent on the performance of the security or other instrument to which they are indexed and also may be influenced by interest rate changes in the United States and abroad. Indexed securities are subject to the credit risks associated with the issuer of the security, and their values may decline substantially if the issuer's creditworthiness deteriorates. Indexed securities may be more volatile than the underlying instruments. Certain indexed securities that are not traded on an established market may be deemed illiquid.

Insured Bank Obligations

The Fund may invest in insured bank obligations. The Federal Deposit Insurance Corporation ("FDIC") insures the deposits of federally insured banks and savings and loan associations (collectively referred to as "banks") up to \$250,000. The Fund may purchase bank obligations which are fully insured as to principal by the FDIC. Currently, to remain fully insured as to principal, these investments must be limited to \$250,000 per bank; if the principal amount and accrued interest together exceed \$250,000, the excess principal and accrued interest will not be insured. Insured bank obligations may have limited marketability.

Investment Company Securities

The Fund may invest in the securities of other investment companies to the extent that such an investment would be consistent with the requirements of the Investment Company Act of 1940, as amended and the Fund's investment objectives. Investments in the securities of other investment companies may involve duplication of advisory fees and certain other expenses. By investing in another investment company, the Fund becomes a shareholder of that investment company. As a result, the Fund's shareholders indirectly will bear the Fund's proportionate share of the fees and expenses paid by shareholders of the other investment company, in addition to the fees and expenses the Fund's shareholders directly bear in connection with the Fund's own operations.

Under Section 12(d)(1) of the Investment Company Act of 1940, as amended, the Fund may invest only up to 5% of its total assets in the securities of any one investment company (ETF or other mutual funds), but may not own more than 3% of the outstanding voting stock of any one investment company (the "3% Limitation") or invest more than 10% of its total assets in the securities of other investment companies. However, Section 12(d)(1)(F) of the Investment Company Act of 1940, as amended provides that the provisions of paragraph 12(d)(1) shall not apply to securities purchased or otherwise acquired by the Fund if (i) immediately after such purchase or acquisition not more than 3% of the total outstanding stock of such registered investment company is owned by the Fund and all affiliated persons of the Fund; and (ii) the Fund has not offered or sold after January 1, 1971, and is not proposing to offer or sell any security issued by it through a principal underwriter or otherwise at a public or offering price which includes a sales load of more than 1 ½% percent. An investment company that issues shares to the Fund pursuant to paragraph 12(d)(1)(F) shall not be required to redeem its shares in an amount exceeding 1% of such investment company's total outstanding shares in any period of less than thirty days. The Fund (or the Adviser acting on behalf of the Fund) must comply with the following voting restrictions: when a Fund exercises voting rights, by proxy or otherwise, with respect to investment companies owned by the Fund, the Fund will either seek instruction from the Fund's shareholders with regard to the voting of all proxies and vote in accordance with such instructions, or vote the shares held by the Fund in the same proportion as the vote of all other holders of such security. Because other investment companies employ an investment adviser, such investments by the Fund may cause shareholders to bear duplicate fees.

In addition, the Fund is subject to the 3% Limitation unless (i) the ETF or the Fund has received an order for exemptive relief from the 3% limitation from the SEC that is applicable to the Fund; and (ii) the ETF and the Fund take appropriate steps to comply with any conditions in such order.

Preferred Stock

Preferred stocks are securities that have characteristics of both common stocks and corporate bonds. Preferred stocks may receive dividends but payment is not guaranteed as with a bond. These securities may be undervalued because of a lack of analyst coverage resulting in a high dividend yield or yield to maturity. The risks of preferred stocks are a lack of voting rights and the Adviser may incorrectly analyze the security, resulting in a loss to the Fund. Furthermore, preferred stock dividends are not guaranteed and management can elect to forego the preferred dividend, resulting in a loss to the Fund.

Real Estate Investment Trusts ("REITs")

REITs are pooled investment vehicles which invest primarily in income producing real estate or real estate related loans or interest. REITs are generally classified as equity REITs, mortgage REITs or a combination of equity and mortgage REITs.

Equity REITs invest the majority of their assets directly in real property and derive income primarily from the collection of rents. Equity REITs can also realize capital gains by selling property that has appreciated in value. Mortgage REITs invest the majority of their assets in real estate mortgages and derive income from the collection of interest payments. The real property and mortgages serving as investment vehicles for REITs may be either residential or commercial in nature and may include healthcare facilities. Similar to investment companies, REITs are not taxed on income distributed to shareholders provided they comply with several requirements of the Code. Such tax requirements limit a REIT's ability to respond to changes in the commercial real estate market.

Investments in REITs are subject to the same risks as direct investments in real estate. Real estate values rise and fall in response to many factors, including local, regional and national economic conditions, the demand for rental property, and interest rates. In addition, REITs may have limited financial resources, may trade less frequently and in limited volume and may be more volatile than other securities.

Repurchase Agreements

The Fund may invest in fully collateralized repurchase agreements. A repurchase agreement is a short-term investment in which the purchaser (i.e., a Fund) acquires ownership of a security and the seller agrees to repurchase the obligation at a future time at a set price, thereby determining the yield during the purchaser's holding period (usually not more than 7 days from the date of purchase). Any repurchase transaction in which the Fund engages will require full collateralization of the seller's obligation during the entire term of the repurchase agreement. In the event of a bankruptcy or other default of the seller, the Fund could experience both delays in liquidating the underlying security and losses in value. However, the Fund intends to enter into repurchase agreements only with its custodian, other banks with assets of \$1 billion or more and registered securities dealers determined by the adviser to be creditworthy. The Adviser monitors the creditworthiness of the banks and securities dealers with which the Fund engages in repurchase transactions. The Fund may not enter into a repurchase agreement with a term of more than seven days if, as a result, more than 15% of the value of its net assets would then be invested in such repurchase agreements and other illiquid investments.

Reverse Repurchase Transactions

The Fund may enter into reverse repurchase transactions. In a reverse repurchase transaction, the Fund concurrently agrees to sell portfolio securities to financial institutions such as banks and broker-dealers, and to repurchase the same securities at a later date at a mutually agreed upon price. The repurchase price generally is equal to the original sales price plus interest. The Fund retains record ownership of the securities and the right to receive interest and principal payments. The Fund will enter into a reverse repurchase transaction in order to obtain funds to pursue additional investment opportunities with a return in excess of the cost of the reverse repurchase transaction. Such transactions may increase fluctuations in the market value of Fund assets and may be viewed as a form of leverage. Reverse purchase transactions also involve the risk that the market value of the securities sold by the Fund may decline below the price at which the Fund is obligated to repurchase the securities. In the event of bankruptcy or other default by the purchaser, the Fund could experience both delays in repurchasing the portfolio securities and losses. The Fund will enter into reverse purchase transactions only with parties whose creditworthiness has been reviewed and found satisfactory by the adviser.

Reverse purchase transactions are considered by the SEC to be borrowings by the Fund under the Investment Company Act of 1940, as amended. At the time the Fund enters into a reverse purchase transaction, it will direct its custodian to place in a segregated account assets (such as cash or liquid securities consistent with the Fund's investment restrictions) having a value equal to the repurchase price (including accrued interest). The Fund will monitor the account to ensure that the market value of the account equals the amount of the Fund's commitments to repurchase securities.

Rights

Rights are usually granted to existing shareholders of a corporation to subscribe to shares of a new issue of common stock before it is issued to the public. The right entitles its holder to buy common stock at a specified price. Rights have similar features to warrants, except that the life of a right is typically much shorter, usually a few weeks. The Adviser believes rights

may become underpriced if they are sold without regard to value and if analysts do not include them in their research. The risk in investing in rights is that the Adviser might miscalculate their value resulting in a loss to the Fund. Another risk is the underlying common stock may not reach the Adviser's anticipated price within the life of the right.

Royalty Trusts

The Fund may invest in royalty trusts. Royalty trusts are special purpose financing vehicles organized as investment trusts created to make investments in operating companies or their cash flows. Royalty trusts buy the right to royalties on the production and sales of a natural resource company. Income and cash flows generated by a royalty trust are passed directly to investors in the form of dividends or the return of invested capital. Examples of royalty trusts include BP Prudhoe Bay Royalty Trust, Cross Timbers Royalty Trust and Williams Coal Seam Gas Royalty Trust. The yield generated by a royalty trust is not guaranteed and because developments in the oil, gas and natural resources markets will affect payouts, could be volatile. For example, the yield on an oil royalty trust can be affected by changes in production levels, natural resources, political and military developments, regulatory changes and conservation efforts. In addition, natural resources are depleting assets. Eventually, the income-producing ability of the royalty trust will be exhausted, at which point the trustees may choose to liquidate, or will attempt to raise or retain funds to make new acquisitions. The purchase of new assets can depress current income and increase the risk that the new property is of lower quality than the property held by the trust. Generally, higher yielding trusts have less time until depletion of proven reserves.

STRIPS

The Federal Reserve creates STRIPS (Separate Trading of Registered Interest and Principal of Securities) by separating the coupon payments and the principal payment from an outstanding Treasury security and selling them as individual securities. To the extent a Fund purchases the principal portion of the STRIP, a Fund will not receive regular interest payments. Instead they are sold at a deep discount from their face value. The Fund will accrue income on such STRIPS for tax and accounting purposes, in accordance with applicable law, which income is distributable to shareholders. Because no cash is received at the time such income is accrued, the Fund may be required to liquidate other Fund securities to satisfy its distribution obligations. Because the principal portion of the STRIP does not pay current income, its price can be very volatile when interest rates change. In calculating its dividend, the Fund takes into account as income a portion of the difference between the principal portion of the STRIP's purchase price and its face value.

U.S. Government Securities

The Fund may invest in U.S. government securities. These securities may be backed by the credit of the government as a whole or only by the issuing agency. U.S. Treasury bonds, notes, and bills and some agency securities, such as those issued by the Federal Housing Administration and the Government National Mortgage Association (Ginnie Mae), are backed by the full faith and credit of the U.S. government as to payment of principal and interest and are the highest quality government securities. Other securities issued by U.S. government agencies or instrumentalities, such as securities issued by the Federal Home Loan Banks and the Federal Home Loan Mortgage Corporation (Freddie Mac), are supported only by the credit of the agency that issued them, and not by the U.S. government. Securities issued by the Federal Farm Credit System, the Federal Land Banks, and the Federal National Mortgage Association (Fannie Mae) are supported by the agency's right to borrow money from the U.S. Treasury under certain circumstances, but are not backed by the full faith and credit of the U.S. government.

The Fund's investments in U.S. Government securities may include agency step-up obligations. These obligations are structured with a coupon rate that "steps-up" periodically over the life of the obligation. Step-up obligations typically contain a call option, permitting the issuer to buy back the obligation upon exercise of the option. Step-up obligations are designed for investors who are unwilling to invest in a long-term security in a low interest rate environment. Step-up obligations are used in an attempt to reduce the risk of a price decline should interest rates rise significantly at any time during the life of the obligation. However, step-up obligations also carry the risk that market interest rates may be significantly below the new, stepped-up coupon rate. If this occurs, the issuer of the obligation likely will exercise the call

option, leaving investors with cash to reinvest. As a result, these obligations may expose the Fund to the risk that proceeds from a called security may be reinvested in another security paying a lower rate of interest.

Warrants

Warrants are securities that are usually issued with a bond or preferred stock but may trade separately in the market. A warrant allows its holder to purchase a specified amount of common stock at a specified price for a specified time. The risk in investing in warrants is the Adviser might miscalculate their value, resulting in a loss to the Fund. Another risk is the warrants will not realize their value because the underlying common stock does not reach the Adviser's anticipated price within the life of the warrant.

Investment Restrictions

Fundamental Investment Limitations. The investment limitations described below have been adopted by the Trust with respect to the Fund and are fundamental ("Fundamental"), *i.e.*, they may not be changed without the affirmative vote of a majority of the outstanding shares of the Fund respectively. As used in the Prospectus and the Statement of Additional Information, the term "majority" of the outstanding shares of the Fund means the lesser of: (1) 67% or more of the outstanding shares of the Fund present at a meeting, if the holders of more than 50% of the outstanding shares of the Fund are present or represented at such meeting; or (2) more than 50% of the outstanding shares of the Fund. Other investment practices, which may be changed by the Board of Trustees without the approval of shareholders to the extent permitted by applicable law, regulation or regulatory policy, are considered non-fundamental ("Non-Fundamental").

1. Borrowing Money. The Fund will not borrow money, except: (a) from a bank, provided that immediately after such borrowing there is an asset coverage of 300% for all borrowings of the Fund; or (b) from a bank or other persons for temporary purposes only, provided that such temporary borrowings are in an amount not exceeding 5% of the Fund's total assets at the time when the borrowing is made. This limitation does not preclude the Fund from entering into reverse repurchase transactions, provided that the Fund has an asset coverage of 300% for all borrowings and repurchase commitments of the Fund pursuant to reverse repurchase transactions.

2. Senior Securities. The Fund will not issue senior securities. This limitation is not applicable to activities that may be deemed to involve the issuance or sale of a senior security by the Fund, provided that the Fund's engagement in such activities is consistent with or permitted by the Investment Company Act of 1940, as amended, the rules and regulations promulgated thereunder or interpretations of the SEC or its staff.

3. Underwriting. The Fund will not act as underwriter of securities issued by other persons. This limitation is not applicable to the extent that, in connection with the disposition of portfolio securities (including restricted securities), the Fund may be deemed an underwriter under certain federal securities laws.

4. Real Estate. The Fund will not purchase or sell real estate. This limitation is not applicable to investments in marketable securities that are secured by or represent interests in real estate. This limitation does not preclude the Fund from investing in mortgage-related securities or investing in companies engaged in the real estate business or that have a significant portion of their assets in real estate (including real estate investment trusts).

5. Commodities. The Fund will not purchase or sell commodities unless acquired as a result of ownership of securities or other investments. This limitation does not preclude the Fund from purchasing or selling options or futures contracts, from investing in securities or other instruments backed by commodities or from investing in companies, which are engaged in a commodities business or have a significant portion of their assets in commodities.

6. Loans. The Fund will not make loans to other persons, except: (a) by loaning portfolio securities; (b) by engaging in repurchase agreements; or (c) by purchasing non-publicly offered debt securities. For purposes of this limitation, the term "loans" shall not include the purchase of a portion of an issue of publicly distributed bonds, debentures or other securities.

7. Concentration. The Fund will not invest 25% or more of its total assets in a particular industry or group of industries. This limitation is not applicable to investments in obligations issued or guaranteed by the U.S. government, its agencies and instrumentalities or repurchase agreements with respect thereto.

If a restriction on the Fund's investments is adhered to at the time an investment is made, a subsequent change in the percentage of Fund assets invested in certain securities or other instruments, or change in average duration of the Fund's investment portfolio, resulting from changes in the value of the Fund's total assets, will not be considered a violation of the restriction; provided, however, that the asset coverage requirement applicable to borrowings shall be maintained in the manner contemplated by applicable law. This paragraph does not apply to the borrowing policy set forth in paragraph 1 above.

The 1940 Act limits the Fund's ability to borrow money, prohibiting the Fund from issuing senior securities, except the Fund may borrow from any bank provided that immediately after any such borrowing there is an asset coverage of at least 300% for all borrowings by the Fund and provided further, that in the event that such asset coverage shall at any time fall below 300%, the Fund shall, within three days thereafter or such longer period as the SEC may prescribe by rules and regulations, reduce the amount of its borrowings to such an extent that the asset coverage of such borrowing shall be at least 300%. Notwithstanding any of the foregoing limitations, any investment company, whether organized as a trust, association or corporation, or a personal holding company, may be merged or consolidated with or acquired by the Trust, provided that if such merger, consolidation or acquisition results in an investment in the securities of any issuer prohibited by said paragraphs, the Trust shall, within ninety days after the consummation of such merger, consolidation or acquisition, dispose of all of the securities of such issuer so acquired or such portion thereof as shall bring the total investment therein within the limitations imposed by said paragraphs above as of the date of consummation.

Non-Fundamental. The following limitations have been adopted by the Trust with respect to the Fund and are Non-Fundamental (see "Investment Limitations - Fundamental" above).

1. Pledging. The Fund will not mortgage, pledge, hypothecate or in any manner transfer, as security for indebtedness, any assets of a Fund except as may be necessary in connection with borrowings described in limitation (1) above. Margin deposits, security interests, liens and collateral arrangements with respect to transactions involving options, futures contracts, short sales and other permitted investments and techniques are not deemed to be a mortgage, pledge or hypothecation of assets for purposes of this limitation.

2. Borrowing. The Fund will not purchase any security while borrowings (including reverse repurchase agreements) representing more than one third of its total assets are outstanding.

3. Illiquid Investments. The Fund will not invest 15% or more of its respective net assets in securities for which there are legal or contractual restrictions on resale and other illiquid securities.

MANAGEMENT OF THE FUND

The Board of Trustees supervises the business activities of the Trust and appoints the officers. Each Trustee serves as a trustee until the termination of the Trust unless the Trustee dies, resigns, retires or is removed. The Board generally meets four times a year to review the progress and status of the Trust.

Board Leadership Structure

The Trust is led by Gregory B. Getts, who has served as the Chairman of the Board since December 2016. Mr. Getts is an "interested person" as defined in the Investment Company Act of 1940, as amended, by virtue of his controlling interest in Arbor Court Capital, LLC (the Funds' distributor) and his status as an officer of the Trust. The Board of Trustees is comprised of Mr. Getts and two other Trustees, neither of whom are an interested person ("Independent Trustees"). The Independent Trustees have not selected a Lead Independent Trustee. Additionally, under certain 1940 Act governance guidelines that apply to the Trust, the Independent Trustees will meet in executive session, at least quarterly. Under the Trust's practice, the Chairman of the Board is responsible for (a) presiding at board meetings, (b) calling special meetings on an as-needed basis, and, more generally, in-practice (c) execution and administration of Trust policies including (i) setting the agendas for board meetings and (ii) providing information to board members in advance of each board meeting and between board meetings.

Generally, the Trust believes it best to have a single leader who is seen by shareholders, business partners and other stakeholders as providing strong leadership. The Trust believes that its Chairman together with the Audit Committee and the full Board of Trustees, provide effective leadership that is in the best interests of the Trust and the Funds' shareholders because of the Board's collective business acumen and understanding of the regulatory framework under which investment companies must operate.

Board Risk Oversight

The Board of Trustees is comprised of Mr. Getts and two Independent Trustees with a standing independent Audit Committee with a separate chair. The Board is responsible for overseeing risk management, and the full Board regularly engages in discussions of risk management and receives compliance reports that inform its oversight of risk management from its Chief Compliance Officer at quarterly meetings and on an ad hoc basis, when and if necessary. The Audit Committee considers financial and reporting risk within its area of responsibilities. Generally, the Board believes that its oversight of material risks is adequately maintained through the compliance-reporting chain where the Chief Compliance Officer is the primary recipient and communicator of such risk-related information, and the Audit Committee's communications with the independent registered public accounting firm.

Trustee Qualifications.

Generally, the Trust believes that each Trustee is competent to serve because of their individual overall merits including: (i) experience, (ii) qualifications, (iii) attributes and (iv) skills.

Dr. Gregory B. Getts – Interested Trustee - Dr. Getts is the owner/President of Mutual Shareholder Services, LLC, a status held since 1999. MSS provides transfer agency and accounting services to mutual funds. Since 2012, Dr. Getts has been the owner of Arbor Court Capital, LLC, which is a mutual fund distributor. Dr. Getts earned his Master and Ph.D. in operations research from Case Western Reserve University. Dr. Getts worked in the mutual fund industry since approximately 1980, and has extensive knowledge and expertise in the industry. He pioneered his way in the industry by writing computer software for transfer agent and accounting services that MSS currently uses in its operations. Dr. Getts has been published three times in regards to portfolio risk management and planning. He also developed a PC game for stock and option simulation that was published by Addison-Wesley. Dr. Getts holds Series 7, 23, 24, 27, and 63 designations.

Paul K. Rode Esq. – Independent Trustee – Mr. Rode is a 2003 graduate of Wittenberg University with a B.A. in political science, and a 2006 graduate of Cleveland-Marshall College of Law with a J.D. Mr. Rode was admitted to the State Bar of Ohio in 2006, as well as the Northern District Federal Court of Ohio. He belongs to the Ohio State Bar Association, and has been employed at Keith D. Weiner & Assoc. Co. L.P.A. since September 2005. He primarily practices as a litigator and primary brief-writer in the collections department. Mr. Rode is very knowledgeable and experienced in contract law. His contact knowledge is valuable as the Trust enters into and renews various service provider contracts annually. He would also provide great value in the event the Trust finds itself having to enforce or interpret a contract.

Michael Young – Independent Trustee – Mr. Young is a former Senior Federal Security Director that retired from federal service after 41.5 years and is currently a Practitioner/Consultant for the Department of Homeland Security. Mr. Young spent 26 years with the United States Secret Service, and worked in investigative and protective divisions, both domestic and foreign. Mr. Young is a graduate of Temple University with a degree in Industrial Management, where he was a Distinguished Military Graduate and received a Regular Army Commission as a 2nd Lieutenant upon entering Active Duty. He served with the 1st Air Cavalry Division for four years in various assignments to include small unit and reconnaissance operations, Division Counterintelligence Operations Officer and Tactical Intelligence Officer. He is a graduate of the U.S. Army Infantry, Ranger and Airborne Schools along with the Army's Tactical and Counterintelligence Schools at Fort Huachuca. Mr. Young is very experienced with setting up efficient and technical operations. His risk management skills will assist the Trust in the continual development of internal controls and processes, as well as asset oversight.

The Trust does not believe any one factor is determinative in assessing a Trustee's qualifications, but that the collective experience of each Trustee makes the Board highly effective.

The following tables provide information about Board of Trustees and the senior officers of the Trust. Information about each Trustee is provided below and includes each person's: name, address, age (as of the date of the Funds' most recent fiscal year end), present position(s) held with the Trust, principal occupations for the past five years. Unless otherwise noted, the business address of each person listed below is c/o Mutual Shareholder Services, LLC, 8000 Town Centre Drive, Suite 400, Broadview Heights, Ohio 44147-4003. Unless otherwise noted, each officer is elected annually by the Board.

The following table provides information regarding each Trustee who is not an "interested person" of the Trust, as defined in the Investment Company Act of 1940, as amended.

Name	Paul K. Rode, Esq.
Address	8000 Town Centre Drive, Suite 400, Broadview Heights, OH 44147
Age	Age: 44
Position(s) Held with the Trust	Trustee
Term of Office/Length of Time Served	Indefinite / October 2016 - present
Principal Occupation(s) During Past 5 Years	Attorney, Keith D. Weiner & Assoc. Co. L.P.A. since September 2005
Number of Portfolios in Fund Complex ⁽¹⁾ Overseen by Trustee	4
Other Directorships Held by Trustee	None

Name	Michael Young
Address	8000 Town Centre Drive, Suite 400, Broadview Heights, OH 44147
Age	Age: 74
Position(s) Held with the Trust	Trustee
Term of Office/Length of Time Served	Indefinite / October 2016 - present
Principal Occupation(s) During Past 5 Years	November 2013-Present: Consultant/Practitioner for Purdue, Rutgers and Northeastern Universities; June 2002-November 2013: Senior Federal Security Director for U.S. Department of Homeland Security
Number of Portfolios in Fund Complex ⁽¹⁾ Overseen by Trustee	4
Other Directorships Held by Trustee	None

⁽¹⁾ The "Fund Complex" consists of MSS Series Trust.

The following table provides information regarding each Trustee who is an "interested person" of the Trust, as defined in the Investment Company Act of 1940, as amended, and each officer of the Trust.

Name	Dr. Gregory B. Getts ⁽²⁾
Address	8000 Town Centre Drive, Suite 400, Broadview Heights, OH 44147
Age	Age: 67
Position(s) Held with the Trust	Trustee and President
Term of Office/Length of Time Served	Indefinite / October 2016 - present
Principal Occupation(s) During Past 5 Years	Owner/President, Mutual Shareholder Services, LLC, since 1999; Owner/President Arbor Court Capital, LLC, since January 2012.
Number of Portfolios in Fund Complex ⁽¹⁾ Overseen by Trustee	4
Other Directorships Held by Trustee	None

Name	Brandon M. Pokersnik
Address	8000 Town Centre Drive, Suite 400, Broadview Heights, OH 44147
Age	Age: 46
Position(s) Held with the Trust	Treasurer, Secretary and Chief Compliance Officer
Term of Office/Length of Time Served	Indefinite / October 2016 - present
Principal Occupation(s) During Past 5 Years	Accountant, Mutual Shareholder Services, LLC, since 2008; Attorney Mutual Shareholder Services, LLC, since June 2016; Owner/President, Empirical Administration, LLC, since September 2012.
Number of Portfolios in Fund Complex ⁽¹⁾ Overseen by Trustee	N/A
Other Directorships Held by Trustee	N/A

⁽¹⁾The "Fund Complex" consists of MSS Series Trust.

⁽²⁾Gregory B. Getts is considered an "Interested" Trustee as defined in the Investment Company Act of 1940, as amended, because he is an officer of the Trust and President/owner of the Funds' distributor.

The Trust's audit committee consists of the Independent Trustees. The audit committee is responsible for (i) overseeing the accounting and financial reporting policies and practices of the Funds, their internal controls and, as appropriate, the internal controls of certain service providers; (ii) overseeing the quality and objectivity of the Funds' financial statements and the independent audit of the financial statements; and (iii) acting as a liaison between the Funds' independent auditors and the full Board of Trustees.

As of the date of this SAI, the Trustees beneficially owned the following amounts in the Fund:

Name of Trustee or Officer	Dollar Range of Securities in Parvin Hedged Equity Solari World Fund	Aggregate Dollar Range of Securities In Trust
Gregory B. Getts	\$10,000	\$100,000 - \$125,000
Paul Rode	None	None
Michael Young	None	None

The following table describes the compensation paid to the Trustees for the Fund's fiscal year ended November 30, 2023. Trustees of the Fund who are deemed "interested persons" of the Trust receive no compensation from the Fund. The Trust does not have a bonus, profit sharing, pension or retirement plan.

Name ⁽¹⁾	Aggregate Compensation from Parvin Hedged Equity Solari World Fund	Total Compensation from Trust ⁽²⁾
Gregory B. Getts ⁽³⁾	None	None
Paul Rode	\$1,200	\$6,000
Michael Young	\$1,200	\$6,000

⁽¹⁾ Each non-interested Trustee receives \$300 per fund, per quarterly meeting attended.

⁽²⁾ The Trust is comprised of the Fund, Towpath Focus Fund, Towpath Technology Fund, and One Rock Fund.

⁽³⁾ Gregory B. Getts. is considered an "Interested" Trustee as defined in the Investment Company Act of 1940, as amended, because of his ownership interest in the transfer agent and distributor.

CODE OF ETHICS

Pursuant to the requirements of rule 17j-1 under the Investment Company Act of 1940, as amended and in order to protect against certain unlawful acts, practices and courses of business by certain individuals or entities related to the Trust, the Fund, the Adviser, and the Distributor have each adopted a Code of Ethics and procedures for implementing the provisions of the Code. The personnel of the Fund, the Adviser, and the Distributor are subject to the code of ethics when investing in securities that may be purchased, sold or held by the Fund.

CONTROL PERSONS AND PRINCIPAL HOLDERS OF SECURITIES

Control Persons

A principal shareholder is any person who owns of record or beneficially 5% or more of the outstanding shares of the Fund. Shareholders owning more than 25% of the shares of the Fund are considered to "control" the Fund as that term is defined under the Investment Company Act of 1940, as amended. Persons controlling the Fund can determine the outcome of any proposal submitted to the shareholders for approval, including changes to the Fund's fundamental policies or the terms of the management agreement with the Adviser. As of March 4, 2024, the following shareholders of record owned 5% or more of the outstanding shares of the Fund:

Name and Address	Shares	Percentage of Fund
Craig Damian Baron 3721 19 th Ave. E. Hibbing, MN 55746	108,815	16.45%
Elizabeth T. Heffernan 5391 Vinton Ave. Freeland, WA 98249	57,008	8.62%
Dana Marie Carini 5195 Skunk Lane Cutchogue, NY 11935	86,288	13.04%
Jon Edward Lasselle Jr. 17455 E. Three Sisters Drive Palmer, AK 99645	49,309	7.45%
Sidney Dinerstein 2520 River Woods Drive Naperville, IL 60565	34,464	5.21%

Management Ownership

As of March 4, 2024, the Trustees and officers of the Trust, as a group, owned less than 1% of the shares of the Fund.

INVESTMENT ADVISORY SERVICES

Investment Adviser

Parvin Fund Management, LLC, ("the "Adviser"), serves as investment adviser to the Fund. Subject to the authority of the Board of Trustees, the Adviser (directly or through the Sub-Adviser) is responsible for management of the Fund's investment portfolio. The Adviser is responsible for selecting the Fund's Sub-Adviser and assuring that investments are made according to the Fund's investment objective, policies and restrictions. The Adviser was established in September 2020 for the purpose of providing investment advice to the Fund. As of February 28, 2024, the Adviser and its affiliate, Parvin Asset Management, had approximately \$129 million in assets under management. J. Steven Smith owns the entirety of the Adviser and Sub-Adviser.

Under the terms of the advisory management agreement (the "Advisory Agreement"), the Adviser, subject to the supervision of the Board of Trustees of the Trust, provides or arranges to be provided to the Fund such investment advice as it deems advisable and will furnish or arrange to be furnished a continuous investment program for the Fund consistent with the Fund's investment objective and policies. The following table sets forth the annual management fee rate payable by the Fund to the Adviser pursuant to the Advisory Agreement, expressed as a percentage of the Fund's average daily net assets:

Fund	Total Management Fee
Parvin Hedged Equity Solari World Fund	1.25%

The Agreement continues for an initial term of two years, and is renewed on a year-to-year basis thereafter, provided that continuance is approved at least annually by specific approval of the Board of Trustees or by vote of the holders of a majority of the outstanding voting securities of a Fund. In either event, it must also be approved by a majority of the Trustees who are neither parties to the agreement nor interested persons as defined in the Investment Company Act of 1940, as amended, at a meeting called for the purpose of voting on such approval. The Agreement may be terminated at any time without the payment of any penalty by the Board of Trustees or by vote of a majority of the outstanding voting securities of a Fund on not more than 60 days written notice to the Adviser. In the event of its assignment, the Agreement will terminate automatically. A discussion regarding the basis for the Board of Trustees' renewal of the Advisory Agreement is available in the Fund's annual shareholder report dated November 30, 2023.

The Adviser has contractually agreed to reduce its fees and to reimburse expenses, at least through December 31, 2024, to ensure that total annual operating expenses after fee waiver and reimbursement (exclusive of any 12b-1 fees, acquired fund fees and expenses, interest expenses, dividend expenses on short sales, taxes, brokerage commissions, expenses incurred in connection with any merger or reorganization, or extraordinary expenses such as litigation) will not exceed 2.25% of the average daily net assets attributable to Parvin Hedged Equity Solari World Fund. This fee waiver and expense reimbursement is subject to possible recoupment from the Fund within three years of the date on which the waiver or reimbursement occurs, if such recoupment can be achieved within the lesser of the foregoing expense limits or the expense limits in place at the time of recoupment. This agreement may be terminated only by the Fund's Board of Trustees, on 60 days written notice to the Adviser.

Investment Sub-Adviser

Parvin Asset Management, LLC, ("the "Sub-Adviser"), serves as investment sub-adviser to the Fund. Subject to the authority of the Board of Trustees and oversight by the Adviser, the Sub-Adviser is responsible for selecting investments according to the Fund's investment objective, policies and restrictions.

Under the terms of the sub-advisory management agreement (the "Sub-Advisory Agreement"), the agreement will terminate in the event of its assignment (as defined in the 1940 Act). The Sub-Advisory Agreement may be terminated by Trust, the Adviser, or by vote of a majority of the outstanding voting securities of the Fund, upon written notice to the Sub-

Adviser, or by the Sub-Adviser upon at least 60 days' written notice. The Sub-Advisory Agreement provides that it will continue in effect for an initial period of two years ("Initial Period") and for more than one year from the end of the Initial Period only so long as such continuance is specifically approved at least annually in accordance with the requirements of the 1940 Act. A discussion regarding the basis for the Board of Trustees' renewal of the Sub-Advisory Agreement is available in the Fund's annual shareholder report dated November 30, 2023.

Portfolio Manager

J. Steven Smith ("Steve Smith") is the portfolio manager responsible for the day-to-day management of the Fund.

As of November 30, 2023, he also is responsible for the management of the following other types of accounts:

Account Type	Number of Accounts by Account Type	Total Assets by Account Type	Number of Accounts by Type Subject to a Performance Fee	Total Assets by Account Type Subject to a Performance Fee
Registered Investment Companies	1	\$5.5	0	\$0
Other Pooled Investment Vehicles	0	\$0	0	\$0
Other Accounts	290	\$122.6	0	\$0

The Adviser has not identified any material conflicts between the Fund and other accounts managed by J. Steven Smith. However, actual or apparent conflicts of interest may arise in connection with the day-to-day management of the Fund and other accounts. The management of the Fund and other accounts may result in unequal time and attention being devoted to the Fund and other accounts. Another potential conflict of interest may arise where another account has the same investment objective as the Fund, whereby the portfolio manager could favor one account over another. Further, a potential conflict could include Mr. Smith's knowledge about the size, timing and possible market impact of Fund trades, whereby they could use this information to the advantage of other accounts and to the disadvantage of the Fund. These potential conflicts of interest could create the appearance that a portfolio manager is favoring one investment vehicle over another.

The following table shows the dollar range of equity securities beneficially owned by the portfolio manager of the Fund as of November 30, 2023.

Name of Portfolio Manager	Dollar Range of Equity Securities in the Parvin Hedged Equity Solari World Fund
J. Steven Smith	\$0

Custodian

U.S. Bank, 425 Walnut Street, Cincinnati, Ohio 45202, serves as the Fund's custodian ("Custodian"). The Custodian acts as the Fund's depository, provides safekeeping of its portfolio securities, collects all income and other payments with respect thereto, disburses funds at the Fund's request and maintains records in connection with its duties.

Fund Services

Mutual Shareholder Services, LLC. ("MSS"), 8000 Town Centre Drive, Suite 400, Broadview Heights, Ohio 44147-4003, acts as the transfer agent ("Transfer Agent") for the Fund. MSS maintains the records of the shareholder's account, answers shareholders' inquiries concerning their accounts, processes purchases and redemptions of the Fund's shares, acts as dividend and distribution disbursing agent and performs other transfer agent and shareholder service functions. MSS receives an annual fee from the Trust of \$11.50 per shareholder (subject to a minimum monthly fee of \$775.00 per Fund) for these transfer agency services.

In addition, MSS provides the Fund with fund accounting services, which includes certain monthly reports, record-keeping and other management-related services. For its services as fund accountant ("Fund Accounting Agent"), MSS receives an annual fee from the Trust based on the average value of a Fund. These fees are: from \$0 to \$25 million in assets the annual fee is \$21,000, from \$25 million to \$50 million in assets the annual fee is \$30,500, from \$50 million to \$75 million in assets the annual fee is \$36,250, from \$75 million to \$100 million in assets the annual fee is \$42,000, from \$100 million to \$125 million in assets the annual fee is \$47,750, from \$125 million to \$150 million in assets the annual fee is \$53,500, and for asset above \$150 million the annual fee is \$59,250. The Trust will receive a discount ranging from 10-60% depending on the net assets of each Trust until the Trust reaches \$10 million in assets.

During the fiscal period beginning December 31, 2020 (commencement of investment operations) ended November 30, 2021, the Fund paid \$11,605 to MSS for transfer agent and fund accounting services. During the fiscal year ended November 30, 2022, the Fund paid \$15,380 to MSS for transfer agent and fund accounting services. During the fiscal year ended November 30, 2023, the Fund paid \$15,044 to MSS for transfer agent and fund accounting services.

Administrator

Empirical Administration, LLC ("Empirical"), 8000 Town Centre Drive, Suite 400, Broadview Heights, Ohio, 44147, serves as the Fund's Administrator. Empirical will be paid \$500 a month for its administration services.

During the fiscal period beginning December 31, 2020 (commencement of investment operations) ended November 30, 2021, the Fund paid \$5,500 for administrative services. During the fiscal year ended November 30, 2022, the Fund paid \$6,000 for administrative services. During the fiscal year ended November 30, 2023, the Fund paid \$6,000 for administrative services.

Compliance Services

Empirical Administration, LLC ("Empirical"), 8000 Town Centre Drive, Suite 400, Broadview Heights, Ohio, 44147, will provide compliance services. Empirical will be paid \$500 a month for its compliance services. Brandon Pokersnik of Empirical is also the CCO of the Trust.

During the fiscal period beginning December 31, 2020 (commencement of investment operations) ended November 30, 2021 the Fund paid \$5,500 for compliance services. During the fiscal year ended November 30, 2022, the Fund paid \$6,000 for compliance services. During the fiscal year ended November 30, 2023, the Fund paid \$6,000 for compliance services.

Independent Registered Public Accounting Firm

The firm of Sanville & Company, 2617 Huntingdon Pike, Huntingdon Valley, Pennsylvania 19006 has been selected as independent registered public accounting firm for the Fund for the fiscal year ending November 30, 2024. Sanville & Company will perform an annual audit of the Fund's financial statements and provides financial, tax and accounting services as requested.

BROKERAGE ALLOCATION AND OTHER PRACTICES

Subject to policies established by the Board of Trustees, the Adviser is responsible for the Fund's portfolio decisions and the placing of the Fund's portfolio transactions. In placing portfolio transactions, the Adviser seeks the best qualitative execution for the Fund, taking into account such factors as price (including the applicable brokerage commission or dealer spread), the execution capability, financial responsibility and responsiveness of the broker or dealer and the brokerage and research services provided by the broker or dealer. The Adviser generally seeks favorable prices and commission rates that are reasonable in relation to the benefits received.

The Adviser is specifically authorized to select brokers or dealers who also provide brokerage and research services to the Fund and/or the other accounts over which the Adviser exercises investment discretion, and to pay such brokers or dealers a commission in excess of the commission another broker or dealer would charge if the Adviser determines in good faith that the commission is reasonable in relation to the value of the brokerage and research services provided. The determination may be viewed in terms of a particular transaction or the Adviser's overall responsibilities with respect to the Trust and to other accounts over which it exercises investment discretion. The Adviser may not give consideration to sales of shares of the Trust as a factor in the selection of brokers and dealers to execute portfolio transactions. However, the Adviser may place portfolio transactions with brokers or dealers that promote or sell a Fund's shares so long as such placements are made pursuant to policies approved by the Board of Trustees that are designed to ensure that the selection is based on the quality of the broker's execution and not on its sales efforts.

Research services include supplemental research, securities and economic analyses, statistical services and information with respect to the availability of securities or purchasers or sellers of securities, and analyses of reports concerning performance of accounts. The research services and other information furnished by brokers through whom the Fund effects securities transactions may also be used by the Adviser in servicing all of its accounts. Similarly, research and information provided by brokers or dealers serving other clients may be useful to the Adviser in connection with its services to the Fund. Although research services and other information are useful to the Fund and the Adviser, it is not possible to place a dollar value on the research and other information received. It is the opinion of the Board of Trustees and the Adviser that the review and study of the research and other information will not reduce the overall cost to the Adviser of performing its duties to the Fund under the Agreement.

Over-the-counter transactions will be placed either directly with principal market makers or with broker-dealers, if the same or a better price, including commissions and executions, is available. Fixed income securities are normally purchased directly from the issuer, an underwriter or a market maker. Purchases include a concession paid by the issuer to the underwriter and the purchase price paid to a market maker may include the spread between the bid and asked prices.

When the Fund and another of the Adviser's clients seek to purchase or sell the same security at or about the same time, the Adviser may execute the transaction on a combined ("blocked") basis. Blocked transactions can produce better execution for the Fund because of the increased volume of the transaction. If the entire blocked order is not filled, the Fund may not be able to acquire as large a position in such security as it desires or it may have to pay a higher price for the security. Similarly, the Fund may not be able to obtain as large an execution of an order to sell or as high a price for any particular portfolio security if the other client desires to sell the same portfolio security at the same time. In the event that the entire blocked order is not filled, the purchase or sale will normally be allocated on a pro rata basis. The Adviser may adjust the allocation when, taking into account such factors as the size of the individual orders and transaction costs, the Adviser believes an adjustment is reasonable.

During the fiscal period beginning December 31, 2020 (commencement of investment operations) ended November 30, 2021 the Fund paid \$441 for brokerage commissions. During the fiscal year ended November 30, 2022, the Fund paid \$1,600 for brokerage commissions. During the fiscal year ended November 30, 2023, the Fund paid \$1,261 for brokerage commissions.

Portfolio Turnover

The portfolio turnover rate for the Fund is calculated by dividing the lesser of the Fund's purchases or sales of portfolio securities for the year by the monthly average value of the portfolio securities. The calculation excludes all securities whose remaining maturities at the time of acquisition were one year or less. The portfolio turnover rate may vary greatly from year to year as well as within a particular year, and may also be affected by cash requirements for redemptions of shares. High portfolio turnover rates will generally result in higher transaction costs, including brokerage commissions, to the Fund and may result in additional tax consequences to the Fund's Shareholders. For the fiscal period beginning December 31, 2020 (commencement of operations) ended November 30, 2021, the Fund's portfolio turnover rate was 47.81%. For the fiscal year ended November 30, 2022, the Fund's portfolio turnover rate was 11.09%. For the fiscal year ended November 30, 2023, the Fund's portfolio turnover rate was 28.57%.

DISCLOSURE OF PORTFOLIO HOLDINGS

The Fund is required to include a schedule of portfolio holdings in its annual and semi-annual reports to shareholders, which is sent to shareholders within 60 days of the end of the second and fourth fiscal quarters and which is filed with the Securities and Exchange Commission (the "SEC") on Form N-CSR within 70 days of the end of the second and fourth fiscal quarters. The Fund also is required to file a schedule of portfolio holdings with the SEC on Form N-PORT within 60 days of the end of the first and third fiscal quarters. The Fund must provide a copy of the complete schedule of portfolio holdings as filed with the SEC to any shareholder of the Fund, upon request, free of charge. This policy is applied uniformly to all shareholders of the Fund without regard to the type of requesting shareholder (i.e., regardless of whether the shareholder is an individual or institutional investor). The Fund may enter into ongoing arrangements to release portfolio holdings to rating agencies, such as Morningstar or Lipper, in order for the agencies to assign a rating or ranking to the Fund. Portfolio holdings will be supplied to rating agencies no more frequently than quarterly and only after the Fund has filed a Form N-CSR or Form N-PORT with the SEC. The Fund currently does not have any ongoing arrangements to release portfolio holdings information to rating agencies.

Pursuant to policies and procedures adopted by the Board of Trustees, the Fund has ongoing arrangements to release portfolio holdings information on a daily basis to the Adviser, Transfer Agent, Fund Accounting Agent and Custodian and on an as needed basis to other third parties providing services to the Fund. The Adviser, Transfer Agent, Fund Accounting Agent and Custodian receive portfolio holdings information daily in order to carry out the essential operations of the Fund. The Fund discloses portfolio holdings to its auditors (Sanville & Company), legal counsel (Thompson Hine LLP), proxy voting services (if applicable), pricing services, printers, parties to merger and reorganization agreements and their agents, and prospective or newly hired investment advisers or sub-advisers. The lag between the date of the information and the date on which the information is disclosed will vary based on the identity of the party to whom the information is disclosed. For instance, the information may be provided to auditors within days of the end of an annual period, while the information may be given to legal counsel at any time.

The Fund makes publicly available on a monthly basis an updated list of its top ten holdings, sector weightings and other Fund characteristics. This information is made available on the Fund's website. The same information may also be included in printed marketing materials. The information is updated monthly and is usually available within 5 days of the month end. The Fund's Form N-CSR and Form N-PORT will contain the Fund's entire list of portfolio holdings as of the applicable quarter end.

The Fund, the Adviser, the Transfer Agent, the Fund Accounting Agent and the Custodian are prohibited from entering into any special or ad hoc arrangements with any person to make available information about the Fund's portfolio holdings without the specific approval of the Board. Any party wishing to release portfolio holdings information on an ad hoc or special basis must submit any proposed arrangement to the Board, which will review the arrangement to determine (i) whether the arrangement is in the best interests of a Fund's shareholders, (ii) the information will be kept confidential (based on the factors discussed below), (iii) whether sufficient protections are in place to guard against personal trading based on the information, and (iv) whether the disclosure presents a conflict of interest between the interests of Fund shareholders

and those of the Adviser, or any affiliated person of a Fund or the Adviser. Additionally, the Adviser, and any affiliated persons of the Adviser, are prohibited from receiving compensation or other consideration, for themselves or on behalf of a Fund, as a result of disclosing a Fund's portfolio holdings.

Information disclosed to third parties, whether on an ongoing or ad hoc basis, is disclosed under conditions of confidentiality. "Conditions of confidentiality" include (i) confidentiality clauses in written agreements, (ii) confidentiality implied by the nature of the relationship (e.g., attorney-client relationship), (iii) confidentiality required by fiduciary or regulatory principles (e.g., custody relationships) or (iv) understandings or expectations between the parties that the information will be kept confidential. The agreements with the Fund's Adviser, Transfer Agent, Fund Accounting Agent and Custodian contain confidentiality clauses, which the Board and these parties have determined extend to the disclosure of nonpublic information about each Fund's portfolio holding and the duty not to trade on the non-public information. The Fund believes, based upon its size and history, that these are reasonable procedures to protect the confidentiality of the Fund's portfolio holdings and will provide sufficient protection against personal trading based on the information.

Determination of Share price

The price (net asset value) of the shares of the Fund is determined at the close of trading (normally 4:00 p.m., Eastern Time) on each day the New York Stock Exchange ("NYSE") is open for business. For a description of the methods used to determine the net asset value, see "How to Buy Shares – Purchasing Shares" in the prospectus.

Equity securities generally are valued by using market quotations, but may be valued on the basis of prices furnished by a pricing service when the Adviser believes such prices accurately reflect the fair market value of such securities. Securities that are traded on any stock exchange or on the NASDAQ over-the-counter market are generally valued by the pricing service at the last quoted sale price. Lacking a last sale price, an equity security is generally valued by the pricing service at its last bid price. When market quotations are not readily available, when the Adviser determines that the market quotation or the price provided by the pricing service does not accurately reflect the current market value, or when restricted or illiquid securities are being valued, such securities are valued as determined in good faith by the Adviser, in conformity with guidelines adopted by and subject to review of the Board of Trustees of the Trust.

Fixed income securities generally are valued by using market quotations, but may be valued on the basis of prices furnished by a pricing service when the Adviser believes such prices accurately reflect the fair market value of such securities. A pricing service utilizes electronic data processing techniques based on yield spreads relating to securities with similar characteristics to determine prices for normal institutional-size trading units of debt securities without regard to sale or bid prices. If the Adviser decides that a price provided by the pricing service does not accurately reflect the fair market value of the securities, when prices are not readily available from a pricing service, or when restricted or illiquid securities are being valued, securities are valued at fair value as determined in good faith by the Adviser, in conformity with guidelines adopted by and subject to review of the Board of Trustees. Short term investments in fixed income securities with maturities of less than 60 days when acquired, or which subsequently are within 60 days of maturity, are valued by using the amortized cost method of valuation, which the Board has determined will represent fair value.

REDEMPTION IN-KIND

The Fund does not intend to redeem shares in any form except cash. The Fund reserves the right to honor requests for redemption or repurchase orders made by a shareholder during any 90-day period by making payment in whole or in part in portfolio securities ("redemption in kind") if the amount of such a request is large enough to affect operations (if the request is greater than the lesser of \$250,000 or 1% of the Fund's net assets at the beginning of the 90-day period) in order to protect the interests of remaining shareholders, or to accommodate a request by a particular shareholder. In the event that an in-kind distribution is made, a shareholder may incur additional expenses, such as the payment of brokerage commissions, on the sale or other disposition of the securities received from a Fund.

TAX CONSEQUENCES

The Fund intends to continue to qualify under Subchapter M of the Internal Revenue Code. Under provisions of Sub-Chapter M of the Internal Revenue Code of 1986 as amended, the Fund, by paying out substantially all of its investment income and realized capital gains, intends to be relieved of federal income tax on the amounts distributed to shareholders. In order to qualify as a "regulated investment company" under Sub-Chapter M, at least 90% of a Fund's income must be derived from dividends, interest and gains from securities transactions, and no more than 50% of a Fund's total assets may be in two or more securities that exceed 5% of the total assets of a Fund at the time of each security's purchase. Not qualifying under Subchapter M of the Internal Revenue Code would cause a Fund to be considered a personal holding company subject to normal corporate income taxes. A Fund then would be liable for federal income tax on the capital gains and net investment income distributed to its shareholders, resulting in a second level of taxation that would substantially reduce net after-tax returns from a Fund. Any subsequent dividend distribution of a Fund's earnings after taxes would still be taxable as received by shareholders.

Tax Distribution: The Fund's distributions (capital gains and dividend income), whether received by shareholders in cash or reinvested in additional shares of a Fund, may be subject to federal income tax payable by shareholders. All income realized by a Fund including short-term capital gains, will be taxable to the shareholder as ordinary income. Dividends from net income will be made annually or more frequently at the discretion of the Board of Trustees. Dividends received shortly after purchase of Fund shares by an investor will have the effect of reducing the per share net asset value of his/her shares by the amount of such dividends or distributions. You should consult a tax adviser regarding the effect of federal, state, local, and foreign taxes on an investment in a Fund.

Federal Withholding: The Fund is required by federal law to withhold 31% of reportable payments (which may include dividends, capital gains, distributions and redemptions) paid to shareholders who have not complied with IRS regulations. In order to avoid this withholding requirement, you must certify on a W-9 tax form supplied by a Fund that your Social Security or Taxpayer Identification Number provided is correct and that you are not currently subject to back-up withholding, or that you are exempt from back-up withholding.

Medicare Tax: For taxable years beginning after December 31, 2012, an additional 3.8% Medicare tax generally will be imposed on certain net investment income (including ordinary dividends and capital gain distributions received from a Fund and net gains from redemptions or other taxable dispositions of Fund shares) of U.S. individuals, estates and trusts to the extent that any such person's "modified adjusted gross income" (in the case of an individual) or "adjusted gross income" (in the case of an estate or trust) exceeds certain threshold amounts. Shareholders should consult their tax advisors about the application of federal, state, local and foreign tax law in light of their particular situation. Should additional series, or funds, be created by the Trustees, a Fund would be treated as a separate tax entity for federal tax purposes.

Foreign Account Tax Compliance Act: Payments to a shareholder that is either a foreign financial institution ("FFI") or a non-financial foreign entity ("NFFE") within the meaning of the Foreign Account Tax Compliance Act ("FATCA") may be subject to a generally nonrefundable 30% withholding tax on: (a) income dividends paid by a Fund after June 30, 2014 and (b) certain capital gain distributions and the proceeds arising from the sale of Fund shares paid by a Fund after December 31, 2016. FATCA withholding tax generally can be avoided: (a) by an FFI, subject to any applicable intergovernmental agreement or other exemption, if it enters into a valid agreement with the IRS to, among other requirements, report required information about certain direct and indirect ownership of foreign financial accounts held by U.S. persons with the FFI and (b) by an NFFE, if it: (i) certifies that it has no substantial U.S. persons as owners or (ii) if it does have such owners, reports information relating to them. A Fund may disclose the information that it receives from its shareholders to the IRS, non-U.S. taxing authorities or other parties as necessary to comply with FATCA. Withholding also may be required if a foreign entity that is a shareholder of a Fund fails to provide a Fund with appropriate certifications or other documentation concerning its status under FATCA.

Tax Loss Carryforward: Under current tax law, net capital losses realized after October 31st and net ordinary losses incurred after December 31st may be deferred and treated as occurring on the first day of the following fiscal year. The

Fund's carryforward losses, post-October losses and post December losses are determined only at the end of each fiscal year. Under the Regulated Investment Company Modernization Act of 2010, net capital losses recognized after December 31, 2010, may be carried forward indefinitely, and their character is retained as short-term and/or long-term. Although the Act provides several benefits, including the unlimited carryover of future capital losses, there may be a greater likelihood that all or a portion of a Fund's pre-enactment capital loss carryovers may expire without being utilized due to the fact that post-enactment capital losses get utilized before pre-enactment capital loss carryovers.

The undistributed ordinary income and capital gains (losses) shown above differ from corresponding accumulated net investment income and accumulated net realized gain (loss) figures reported in the statement of assets and liabilities due to post-October capital loss deferrals on a Fund. As of November 30, 2023, the Fund had \$148,881 in short-term capital loss carryforwards and \$185,171 in long-term capital loss carryforwards.

PROXY VOTING POLICIES AND PROCEDURES

The Board of Trustees of the Trust has delegated responsibilities for decisions regarding proxy voting for securities held by the Fund to the Adviser. A copy of the proxy voting policies of the Adviser are attached hereto as Appendix A. MORE INFORMATION. The actual voting records relating to portfolio securities during the most recent 12-month period ended June 30 will be available without charge, upon request, by calling toll free, 1-866-458-4744. The information also will be available on the SEC's website at www.sec.gov. In addition, a copy of the Trust's proxy voting policies and procedures are also available by calling 1-866-458-4744 and will be sent within three business days of receipt of a request.

Financial Statements

You can obtain a copy of the Fund's future semi-annual reports and annual reports without charge by calling 1-866-458-4744.

Appendix A

PROXY VOTING POLICIES AND PROCEDURES

Background: Pursuant to Rule 206(4)-6 and Rule 204-2 under the Advisers Act, it is a fraudulent, deceptive, or manipulative act, practice or course of business, within the meaning of Section 206(4) of the Advisers Act, for an investment adviser to exercise voting authority with respect to client securities, unless (i) the adviser has adopted and implemented written policies and procedures that are reasonably designed to ensure that the adviser votes proxies in the best interests of its clients, (ii) the adviser describes its proxy voting procedures to its clients and provides copies on request, and (iii) the adviser discloses to clients how they may obtain information on how the adviser voted their proxies.

SEC Guidance on Proxy Voting. In August of 2019 and July of 2020, the SEC issued formal guidance on the proxy voting responsibilities of investment advisers in SEC Release Nos. IA-5325 and IA-5547. Those releases:

- provide guidance on the ability of investment adviser to establish a variety of different voting arrangements with their clients (for example, a situation where an adviser is not required to vote even when it has authority to do so);
- discuss matters advisers should consider when using proxy advisory firms (such as proper handling of such a firm's "pre-populated" ballot and consideration of issuer statements opposing a proxy advisory firm's recommendations); and
- address disclosure and client consent obligations when using proxy advisory firms.

Policy and Procedures: The Adviser will vote proxies on behalf of its individual clients. In order to fulfill its responsibilities under the Advisers Act, the Adviser has adopted the following policies and procedures for proxy voting with regard to companies in the investment portfolio of the Fund(s).

The Adviser will ensure its proxy voting practices meet the above requirements, including all guidance issued by the SEC.

Voting Proxies

1. All proxies sent to clients that are actually received by the Adviser (to vote on behalf of the client) will be provided to the Operations Unit.
2. The Operations Unit will generally adhere to the following procedures (subject to limited exception):
 - (a) A written record of each proxy received by the Adviser (on behalf of its clients) will be kept in the Adviser's files;
 - (b) The Operations Unit will determine which of the Adviser holds the security to which the proxy relates;
 - (c) Prior to voting any proxies, the Operations Unit will determine if there are any conflicts of interest related to the proxy in question in accordance with the general guidelines set forth below. If a conflict is identified, the Operations Unit will then make a determination (which may be in consultation with outside legal counsel) as to whether the conflict is material.
 - (e) If no material conflict is identified pursuant to these procedures, the Operations Unit will vote the proxy in accordance with the guidelines set forth below. The Operations Unit will deliver the proxy in accordance with instructions related to such proxy in a timely and appropriate manner.

Conflicts of Interest

1. As stated above, in evaluating how to vote a proxy, the Operations Unit will first determine whether there is a conflict of interest related to the proxy in question between Adviser and its advisory clients. This examination will include (but will not be limited to) an evaluation of whether the Adviser (or any affiliate of the Adviser) has any relationship with the company (or an affiliate of the company) to which the proxy relates outside of an investment in such company by a client of the Adviser.

- 2 If a conflict is identified and deemed “material” by the Operations Unit, the Adviser will determine whether voting in accordance with the proxy voting guidelines outlined below is in the best interests of the client (which may include utilizing an independent third party to vote such proxies).
- 3 With respect to material conflicts, the Adviser will determine whether it is appropriate to disclose the conflict to affected clients give such clients the opportunity to vote the proxies in question themselves. However, with respect to ERISA clients whose advisory contract reserves the right to vote proxies when the Adviser has determined that a material conflict exists that affects its best judgment as a fiduciary to the ERISA client, the Adviser will:
 - (a) Give the ERISA client the opportunity to vote the proxies in question themselves; or
 - (b) Follow designated special proxy voting procedures related to voting proxies pursuant to the terms of the investment management agreement with such ERISA clients (if any).

Proxy Voting Guidelines. See “Proxy Voting Guidelines” below.

Disclosure of Procedures

A summary of above these proxy voting procedures will be included in Part 2 of the Adviser's Form ADV and will be updated whenever these policies and procedures are updated. Clients will be provided with contact information as to how they can obtain information about: (a) the Adviser's proxy voting procedures (i.e., a copy of these procedures); and (b) how the Adviser voted proxies that are relevant to the affected client.

Recordkeeping Requirements

The Operations Unit will be responsible for maintaining files relating to the Adviser's proxy voting procedures. Records will be maintained and preserved for five years from the end of the fiscal year during which the last entry was made on a record, with records for the first two years kept in the offices of the Adviser. Records of the following will be included in the files:

1. Copies of these proxy voting policies and procedures, and any amendments thereto;
2. A copy of each proxy statement that the Adviser actually received; provided, however, that the Adviser may rely on obtaining a copy of proxy statements from the SEC's EDGAR system for those proxy statements that are so available;
3. A record of each vote that the Adviser casts;
4. A copy of any document that the Adviser created that was material to making a decision how to vote the proxies, or memorializes that decision (if any); and
5. A copy of each written request for information on how the Adviser voted such client's proxies and a copy of any written response to any request for information on how the Adviser voted proxies on behalf of clients.

Proxy Voting Guidelines

Key Objectives

The key objectives of these guidelines recognize that a company's management is entrusted with the day-to-day operations and longer-term strategic planning of the company, subject to the oversight of the company's board of directors. While “ordinary business matters” are primarily the responsibility of management and should be approved solely by the corporation's board of directors, these objectives also recognize that the company's shareholders must have final say over how management and directors are performing, and how shareholders' rights and ownership interests are handled, especially when matters could have substantial economic implications to the shareholders.

Therefore, we will pay particular attention to the following matters in exercising our proxy voting responsibilities as a fiduciary for our clients:

Accountability. Each company should have effective means in place to hold those entrusted with running a company's business accountable for their actions. Management of a company should be accountable to its board of directors and the board should be accountable to shareholders.

Alignment of Management and Shareholder Interests. Each company should endeavor to align the interests of management and the board of directors with the interests of the company's shareholders. For example, we generally believe that compensation should be designed to reward management for doing a good job of creating value for the shareholders of the company.

Transparency. Promotion of timely disclosure of important information about a company's business operations and financial performance enables investors to evaluate the performance of a company and to make informed decisions about the purchase and sale of a company's securities.

Decision Methods

We generally believe that the individual portfolio managers that invest in and track particular companies are the most knowledgeable and best suited to make decisions with regard to proxy votes. Therefore, we rely on those individuals to make the final decisions on how to cast proxy votes.

No set of proxy voting guidelines can anticipate all situations that may arise. In special cases, we may seek insight from our managers and analysts on how a particular proxy proposal will impact the financial prospects of a company, and vote accordingly.

Summary of Topic-Specific Guidelines

Election of the Board of Directors

We believe that good corporate governance generally starts with a board composed primarily of independent directors, unfettered by significant ties to management, all of whose members are elected annually. We also believe that turnover in board composition promotes independent board action, fresh approaches to governance, and generally has a positive impact on shareholder value. We will generally vote in favor of non-incumbent independent directors.

The election of a company's board of directors is one of the most fundamental rights held by shareholders. Because a classified board structure prevents shareholders from electing a full slate of directors annually, we will generally support efforts to declassify boards or other measures that permit shareholders to remove a majority of directors at any time, and will generally oppose efforts to adopt classified board structures.

Approval of Independent Auditors

We believe that the relationship between a company and its auditors should be limited primarily to the audit engagement, although it may include certain closely related activities that do not raise an appearance of impaired independence.

We will evaluate on a case-by-case basis instances in which the audit firm has a substantial non-audit relationship with a company to determine whether we believe independence has been, or could be, compromised.

Equity-based Compensation Plans

We believe that appropriately designed equity-based compensation plans, approved by shareholders, can be an effective way to align the interests of shareholders and the interests of directors, management, and employees by providing incentives to increase shareholder value. Conversely, we are opposed to plans that substantially dilute ownership interests in the company, provide participants with excessive awards, or have inherently objectionable structural features.

We will generally support measures intended to increase stock ownership by executives and the use of employee stock purchase plans to increase company stock ownership by employees. These may include:

1. Requiring senior executives to hold stock in a company.
2. Requiring stock acquired through option exercise to be held for a certain period of time.

These are guidelines, and we consider other factors, such as the nature of the industry and size of the company, when assessing a plan's impact on ownership interests.

Corporate Structure

We view the exercise of shareholders' rights, including the rights to act by written consent, to call special meetings and to remove directors, to be fundamental to good corporate governance.

Because classes of common stock with unequal voting rights limit the rights of certain shareholders, we generally believe that shareholders should have voting power equal to their equity interest in the company and should be able to approve or reject changes to a company's by-laws by a simple majority vote.

We will generally support the ability of shareholders to cumulate their votes for the election of directors.

Shareholder Rights Plans

While we recognize that there are arguments both in favor of and against shareholder rights plans, also known as poison pills, such measures may tend to entrench current management, which we generally consider to have a negative impact on shareholder value. Therefore, while we will evaluate such plans on a case-by-case basis, we will generally oppose such plans.
